A Message from the Director, CSIR-NBRI, Lucknow

On the occasion of the “Vigilance Awareness Week 2020”, which is being organized at CSIR-NBRI, Lucknow from 27th October to 2nd November 2020 on the theme “सतर्क भारत, समृद्ध भारत (Vigilant India, Prosperous India)” in accordance with the guidelines issued by the Central Vigilance Commission.

Vigilance Awareness Week reaffirms our faith and commitment to achieve the organizational goal with highest level of transparency and corporate governance.

Corruption is a serious and complex malaise which is to be fought with multifaceted strategies. Detective or predictive vigilance, punitive or corrective vigilance, preventive or proactive vigilance are such strategies. Enforcement of the rules in its letter and spirit ensures integrity, accountability and transparency. These are fundamental traits of an effective and responsible organisation.

There has to be total commitment and honesty on the part of each employee of our organisation in implementing these strategies. Therefore, let us dedicate ourselves towards honesty and commitment. The implementation of these multifaceted vigilance mechanisms can make our nation vigilant and prosperous.

To increase awareness amongst all CSIR-NBRI family members, our Vigilance section is organizing a number of events during the Vigilance Awareness Week. I urge you all to enthusiastically participate in all the activities during the week and make it a great success.
